NEW BERLIN – Two new individuals joined the Village of New Berlin Board of Trustees on Tuesday night and the other remaining members thanked them for their interest in serving their

community.

After the recent election two new board members have been elected to serve the Village of New Berlin, trustees Michelle Priola and Christopher Gatti. Village Mayor Terry Potter, recently promoted Deputy Mayor Michael Conroe, Trustee Dave Smith,

and Clerk Treasurer Kelly Anderson returned for another term.

At Tuesday night's meeting Potter wished the two good luck and thanked them for stepping up and serving their community.

"I know this won't be easy, but thank you guys for stepping up," he said. "There was a time where no one was interested in filling at least one of those positions, but we're excited to have both of you on board."

Both Priola and Gatti are from the New Berlin area, and said they looked forward to making a difference.

Priola said she was originally from Whitsboro NY, but has lived in the New Berlin

The Splash Path 5K and Fun Walk at Pathfinder Village will take place on Saturday, May 18. (Submitted photo)

## Pathfinder Village to host Splash Path 5K

EDMESTON – Sign up for colorful, affordable family fun at the Splash Path 5k and Fun Walk at Pathfinder Village on Saturday, May 18. Online registration is open for this vibrant paint run-and-walk that is raising funds for the Pathfinder Produce Mobile Market, which delivers fresh fruits and vegetables to area communities.

Pathfinder Village is a residential community and service provid-

er for those with Down syndrome and other disabilities. Now in its sixth year, Pathfinder Produce works with healthcare partners to transport fresh fruits and vegetables to area families living in food deserts; the Mobile Market also creates meaningful, community-based vocational opportunities for adults with disabilities.

Participants may register online at [splash-path.racewire.com](http://splash-path.racewire.com). Printable forms also are

available at the Village's website, [pathfindervillage.org/get-involved/splash-path](http://pathfindervillage.org/get-involved/splash-path). All runners and walkers must sign waivers to take part; no bikes or pets are allowed on the course.

"Splash Path is an inclusive way for families to enjoy a fun fitness activity together. We welcome walkers and runners of all ages, abilities, and fitness levels," said Splash

## Annual Easter Egg Hunt slated for Saturday

NEW BERLIN – The annual Easter Egg Hunt held in Hyde Park is scheduled for this Saturday, and children of all ages are invited to attend.

The egg hunt will take place at 1 p.m. on Saturday, April 20, in Hyde Park.

According to Village of New Berlin Clerk Kelly Anderson, there are no age restrictions on child participation, and in the case of inclement weather the event will instead occur at the Unadilla Valley High School Gymnasium.

"We're still on track for the hunt to happen at the park this Saturday," said Anderson. "Our DPW guys have done a fantastic job this year, they've built new garbage cans as well as new

benches and we can't wait for this event."

She said this is one of the village's favorite events, and previous Village of New Berlin Youth Commissioner Haywood Edwards organized the preparations to make things easier for the new board members.

"We really appreciate the work Haywood is putting into making this year one of the best Easter Egg Hunts at Hyde Park," said Anderson. "Hopefully New Berlin families will come to the event and have a great time."

She said Unadilla Valley National Honor Society members will help fill and hide the Easter Eggs on the day of the event.

# The Meeting Place named Business of the Year

The Meeting Place's Dwight Mott

UNADILLA – The Meeting Place has been selected as this year's Unadilla Chamber of Commerce Business of the Year.

Owner Dwight Mott will be presented the award at the annual dinner on Sunday, April 28 at the First United Methodist Church in Unadilla. A social with appetizers will take place from 4:30 to 5:00 p.m., with a pot roast beef dinner following at 5:00 p.m.

Located at 187 Main Street in the historic village of Unadilla,

The Meeting Place is a café/coffee house which opened in May, 2017 with the mission "Connecting our community... one cup at a time."

The primary focus and purpose of The Meeting Place is providing the community with a cozy hub with comfortable seats, where neighbors can bump into each other, share gossip, and gather with their friends to linger over the an awesome cup of coffee (or tea).

In addition to great coffee (locally roasted, fair trade beans & espresso drinks) and great tea (locally blended and traditionally brewed), Dwight bakes small-batch, from-scratch, muffins & scones every morning and offers a light lunch and his mom's

homemade pies & desserts each day.

Dwight credits the success of The Meeting Place to the welcoming atmosphere he has strived to create, "appealing to all five senses the moment guests walk through the door – warm, nostalgic turn-of-the-century decor which harkens back to the heyday of our local community; comfy seats, natural light and that 'coffee house buzz' to lubricate creativity; the smells of just out of the oven 'home-baked' treats; and the taste of REALLY good coffee (and tea!)."

But even moreso, Dwight credits the welcoming community of his regular customers and the cast of local characters that make The Meeting Place a truly special

place. "Whether you stop every day for your muffin and coffee, or you are just passing through town and come in for a quick bite, I promise you won't leave the shop without a new friend or two. That's just the kind of place this is!"

Open Wednesday through Sunday during the Spring & Summer, and open 7 days from October to December, The Meeting Place has become the rendez-vous point for a variety of groups and special events, from the Unadilla Rotary Club, Unadilla Historical Association, and the Chamber of Commerce, to a group of local writers, an occasional drum circle, a book club, and a meet up of local chicken enthusiasts.

The Meeting Place has hosted movie nights, history chats, expositions by local artists, impromptu concerts by local performers, and the shelves always boast a variety of locally-produced products and antiques. Dwight has also developed a loyal following for his Sunday Suppers during the winter months, and his Afternoon Tea held the second Tuesday every month.

area for 22 years. She added that she has a bachelors degree in english and sociology, and a masters degree in gerontology program administration.

"I've worked with the Village of New Berlin Library for 16 years, and have been a director there for approximately three years," said Priola. "My work at the library is very separate from my work on the village board, and they have to remain separate."

She said she has been attending village board meetings and thinking about running for about a year.

"I've lived in the community for 22 years,

and my kids have never known any other place at home," said Priola. "I felt a need to serve my community."

The other newly elected trustee, Gatti, said he has worked over 30 years in commercial printing, but always had other jobs on the side.

"When it comes to the most fun side jobs I've held, I ran a small company for vintage guitar repairs, I've worked for guitarists, and I've also been a land surveyor," said Gatti. "Whenever I could try something new and learn about it I would."

According to Gatti, he decided to run for local office after attending several months of

meetings and hoping to be able to make a difference.

"I've been coming to the meetings for several months, and after awhile I decided that I'd like to run for a position and try my best to help," he said. "Sometimes it's easier to make a difference when you're actually sitting at the table, instead of making suggestions from the crowd."

Gatti said no one was running for the position he filled up until two days before the election, and at that point he decided to step in.

"If something is wrong, I want to try to make it right," he said. "If something is good, I want to make it better."

## New Berlin Library Corner

### Children's Rooms Reopened at the New Berlin Library

The New Berlin Library is happy to announce that the Juvenile Literature Room and the Children's Room at the library are reopened to the

public. The museum, located on the lower level of the library, remains closed. The tear out of the water damaged walls and ceilings in the museum is complete and reconstruction will begin soon.

On Wednesday May 1st from 3 - 6 pm a member of the U.S. Census Recruitment staff will be available at the New Berlin Library to answer questions regarding online applications and provide assistance with the application process. The U.S. Census Department has job openings in the area for the 2020 Census. Public computers will be available for interested individuals to apply for employment.

The Annual Spring Tea is scheduled for

Saturday, May 4 at 2 pm in the New Berlin Library. Local musician and composer, George Anderson, will be performing original compositions on keyboard and guitar. Tea and snacks will be served. There will be also be free Alstroemeria flowers, for attendees. This event is free and open to the public.

Some great new additions to the library include: The Final Cut by Catherine Coulter, The American Agent (Maisie Dobbs) by Jacqueline Winspear, The Last Second (A Brit in the FBI) by Catherine Coulter and J. T. Ellison, Wild Card (Stone Barrington) by Stuart Woods, Someone Knows by Lisa Scottoline, The Fall of Crazy House by James Patterson and

Gabrielle Charbonnet, and On the Basis of Sex DVD.

The New Berlin Library is located at 15 South Main Street, New Berlin. The Library is open Monday and Wednesday 10 a.m. - 8 p.m.; Tuesday, Thursday, Friday 10 a.m. - 5 p.m.; and Saturdays 10 a.m. - noon.

Splash Path is sponsored by businesses and community partners, which keeps registration fees affordable for participants. Key sponsors to date include: Brown & Brown of New York, Inc., NYCM Insurance, Excellus BlueCross BlueShield, Otsego County, The Wladis Law Firm, Bassett Healthcare Network, NBT Bank, New York Pizzeria of New Berlin, Bank of Cooperstown, Chobani and Coutlée Law.

## Chobani will donate \$200k in CNY this year

BY GRADY THOMPSON  
THE GAZETTE

NORWICH—Chobani announced April 11 it will double the amount of funds donated in its Community Impact Fund in an effort to further promote economic opportunity and entrepreneurship in Central New York and the Magic Valley in Idaho.

In expanding its Community Impact Fund, Chobani will contribute \$200,000 this year in Central New York. Grant applications from residents of Delaware, Chenango, Madison and Otsego counties will be accepted through June 2019, and will be awarded later this year.

"At Chobani, we do more than make yogurt," said Chobani

in a statement. "Each and every day, we try to make a difference. By increasing the size of the fund and allowing multi-year grants, we're unlocking the potential for organizations to build bigger and bolder initiatives that can drive meaningful, lasting change for communities across Central New York."

Last year, Oxford Academy and Central School District and Sidney Central School District were among the four grant recipients of the inaugural Community Impact Fund for Central New York, which awarded \$100,000 in the region.

Oxford schools received the maximum awarded grant of \$30,000 to pay the wages and payroll costs of 25 students participating in a 10-month

work experience. Sidney schools received \$21,000 to help incorporate a student-run food truck, offering fresh, locally harvested, healthy food options for school meals.

Other initiatives supported by the Community Impact Fund last year included, "an incubator for agriculture and food-related enterprises," "a work readiness, entrepreneurship, and financial literacy program for high school students," and, "a marketing initiative for direct market farmers to better brand their business and excite new customers."

The Community Foundation of South Central New York will once again serve as Chobani's implementing partner in awarding the grants.

## “Iroquoian Snow Snakes”

these imaginary animals exist but in fact, the snow snakes are not a rare species of serpent, it is a winter game played by the Iroquois during winter times.

The game of Snow Snakes is an ancient (Iroquois) Haudenosaunee winter game but remains popular yet today amongst the Iroquois

After returning from the fall-winter hunt, the game was played between individuals, clans, tribes, villages, and Iroquoian nations: Mohawk, Oneida, Tuscarora, Onondaga, Cayuga, and Senecas.

Snow Snake is played

on a frozen snow track. Snow is piled up to a height of about 4 feet at the beginning of the track. A log is then placed on top of the snow pile to make a track within which the shooters must throw their snakes. The track gradually slopes downward to follow the contour of the earth. The team who has the longest distance throws, wins. The best throwers win prizes but more importantly, bragging rights until the next event

The game is usually played by four teams, called “corners,” each of whom compete in trying to “throw” their wooden “snow snakes” the longest distance along the snow and ice trough, or track of snow. The game is divided into rounds, and in a round each team gets four throws. At the end of each round, two points are awarded to the team who made the farthest throw in the round, and one point is awarded for the second farthest throw. Play continues until one of the teams wins, by achieving a certain predetermined number of points

There are two roles on a snow snake team: the Player, and the Goaler. The main role

of a Goaler is to craft and maintain a team’s wooden “snow snakes” in between games. The Goaler is also tasked with selecting which snake will be used for each throw during the game. A Player, meanwhile, is a player who actually throws the snow snakes during a game.

The snow snake is actually a carefully carved piece of maple, ash, hickory, or hornbeam.. There are several kinds of snakes.. The snakes are only 3/4 of an inch in diameter so shooters are very careful with their best snakes. The snow snakes used in the game have different names depending on their length. The smallest poles used are the six-inch-long “snow darts.” The next size up is the three-foot-long “short snake” Longer poles are known only as “snow snakes”, and can be anywhere from six to ten feet in length. Snow Snakes can be made from a variety of materials. In The trough, or track, that snow snakes are thrown down is typically five inches deep, rising up in a slope at the end where the players stand. In modern times, some groups will add obstacles like jumps or snow barriers to their

tracks, for added interest.

The snow snake is highly smooth and polished. About an inch broad at the lead and tapered down to nearly half an inch at the tail or finger hold end. The head is conical and often covered with lead for balance, momentum, and protection

According to the Iroquois oral traditions the game dates back more than 500 years, before the arrival of Europeans in North America. Originally a form of communication between villages, the throwing of “snow snakes” in a trough of snow developed into a competitive sport during long winters when the long track was not used for communication. [https://en.wikipedia.org/wiki/Snow\\_snake](https://en.wikipedia.org/wiki/Snow_snake) - cite\_note-gan-3 The name “snow snake” is said to have come from the serpentine wiggling motion of the poles as they slide down the icy track. Good players are able to throw a snow snake on an iced track for a distance from 300-400 yards, and exceptional players claim greater distances. Distances increase depending upon the angle of down grade tracks.

It was another “country humor” way to scare farm children. Instead of Vermont dairy cows whose shorter legs on one side caused them to tumble down the hill if they reversed their grazing directions; or “hoop snakes” who took

their tail in their mouth and rolled down the hill to catch and bite you, it was Snow Snakes buried in the deep snow. If the snow snake bit you it caused your immediate death due to your blood instantly freezing. Fortunately none of

## Senator Seward meets with Vietnam veteran on PTSD awareness walk

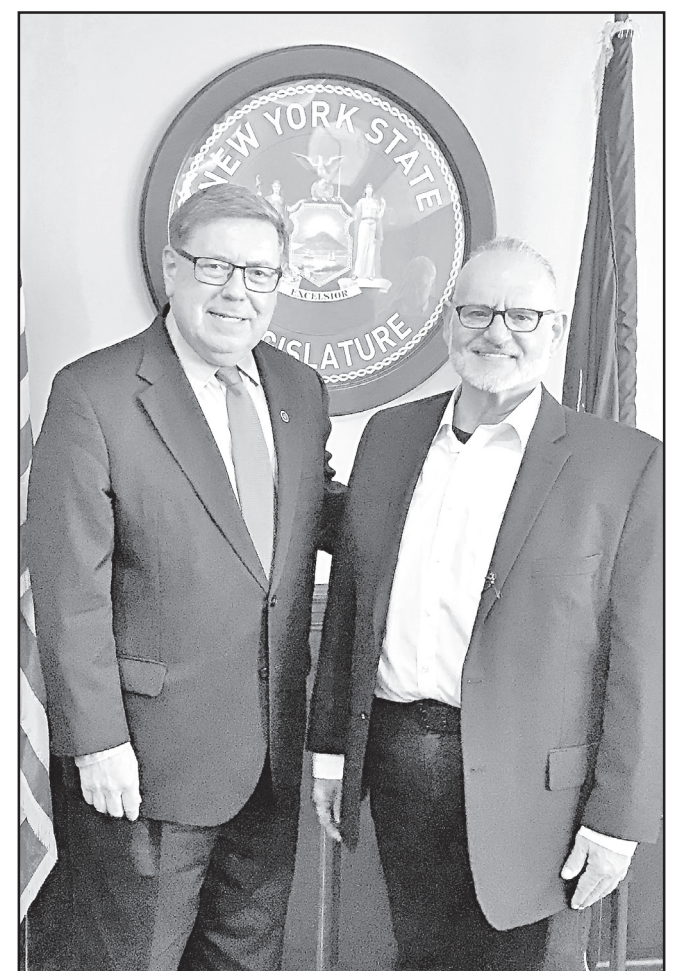

ALBANY – On April 9 State Senator James L. Seward (R/C/I/Ref – Oneonta) welcomed Frank Romeo to Albany. Frank, a Vietnam veteran from Long Island, is walking across New York to raise awareness about the struggles veterans endure with posttraumatic stress disorder (PTSD).

“Frank Romeo is an inspiration and his cross-state walk is making real strides raising awareness about the struggles veterans endure with posttraumatic stress disorder (PTSD),” said Senator Seward. “I met with Frank several months ago to discuss his walk and was extremely impressed with his pas-

sion for a cause that deserves more attention. It was great to see him again in Albany and learn about his progress. Frank is shedding new light on PTSD and I salute his efforts.”

Romeo, one of the longest living survivors diagnosed with 100 percent PTSD related disabilities, is walking 750 miles across New

York State. Prior to Monday’s trip to the Capitol, Romeo spent time in Otsego County walking with fellow veterans in Oneonta and visiting the National Baseball Hall of Fame and Museum in Cooperstown. Additional information about the walk can be found at [www.walk-withfrank.org](http://www.walk-withfrank.org).

Unadilla Chamber of Commerce selections community award winner

UNADILLA – George DeNys has been selected as this year's Unadilla Chamber of Commerce Commitment to Community/Good Neighbor Award winner.

He will be honored at the annual dinner on Sunday, April 28 at the First United Methodist in Unadilla. A social with appetizers will take place from 4:30 to 5:00 pm., with a pot roast beef dinner following at 5:00.

George lives in Unadilla with his wife Sarah Grote and two children: Julie, 5, and George 2. He serves as the Unadilla Town Supervisor, a position to which he was elected in 2018. Before that, he served on the Masonville Town Board for eight years.

George takes great pride in teaching kids to drive tractors and, occasionally, a bulldozer. He has spent time with local youth teaching them about horses.

As a licensed pilot, he has flown people to Pittsburgh and Boston for organ transplants. He's also flown dogs from shelter-and-rescue operations as far away as Missouri, then back to Pennsylvania and New

York, for placement in foster and permanent homes through Willing Hearts Dalmatian Rescue.

George DeNys, this year's Unadilla Chamber of Commerce Commitment to Community / Good Neighbor Award winner.

A member of St. Luke's Church in Sidney, George has hosted an astronomy class through the church for kids to learn more about the world around them.

George is Commander of the Unadilla American Legion Post 578. Each year the post raises money through the Poppy Drive, donating more than \$4,000 to good causes, including a program pairing canines and veterans.

Along with his wife, George performs musical fundraisers for the

Deposit Community Theatre and Performing Arts Center. George plays the banjo, guitar and auto-harp, with Sarah on the mandolin. They have done this for the past 10 years and it's no wonder they love for the Community Theatre—that is where they met.

George is a lifetime member of the Disabled American Veterans and the National Rifle Association. As a NRA instructor, he has taught gun safety to many teenagers and adults.

George served in the U.S. Air Force stationed in Korea and England, with duties during the Cold War and Gulf Wars.

George and Sarah chair of the Sidney Central School Backpack program, something they've been a part of for the past three years. The program is run through the St. Luke's Church.

"I try to make the world a better place by helping one person at a time," George said. "It may seem like a small thing, but it's everything to that one person."

Describing Unadilla as "a place I love to call home," he added, "The people in Unadilla truly feel like family."

The Rise Of  
**Drones**

This cartoon isn't even remotely interesting.

In the late 1800s, famed inventor Nikola Tesla demonstrated a remote-controlled boat. Today, an entire industry has grown around Tesla's invention, with one of the most popular being remote-controlled flying drones. With more than 3 million civilian drones sold worldwide, it's safe to say that the popularity of drones is really taking off!

The worldwide drone industry accounts for about \$3 billion annually.

What do you get when you cross a drone with a deep-voiced actor? James Earl Drones.

Nearly half of the commercial drones flown in North America are used for real estate photography.

On a basic quadcopter, two of the propellers spin clockwise, while the other two spin counter-clockwise.

Most drones are about 1 meter (3 ft.) in diameter, but some experimental drones are as small as an insect.

Drones have proven to be lifesaving tools when used by firefighters, lifeguards, search and rescue teams, police and other first responders.

Starting in the early 2000s, unmanned aerial vehicles, or UAVs, have been used extensively by the armed forces of many countries around the world.

Drones used in the Drone Racing League travel as fast as 150 km/h (80 mph) while flying through intricate courses.

Where is the best place to fly a drone? On a remote island.

How are things in the drone business? Looking up!

**Droning On And On...**  
In the United States, more than 1 million drones have been registered with the Federal Aviation Administration.

Hundreds of drones have been flown simultaneously to create spectacular aerial light shows at events like the 2017 Super Bowl and the 2018 Winter Olympics.

**Sky's The Limit**  
Drones are valuable tools when it comes to inspecting and monitoring wildlife, cropland, power lines, pipelines and wind turbines.

Drones have successfully been used in remote areas to deliver food, first aid and medicine.

**Indiana Drones And The Temple Of Doom**  
Can you help this drone find the treasure?

## LOOKING FOR AN AFFORDABLE USED CAR?

SICK OF BUYING rusty junk off of Craigslist and then spending more than you paid for it trying to get it functional or to pass inspection? At Central Auto Sales I take pride in buying quality cars that are still in excellent condition that can supply you with many miles of service in the future. I typically buy my cars from states south of NY to avoid the rust associated with local cars. I have a nice selection of cars in the affordable \$3-5K range, most are low miles or low miles for the age. I'm a lifetime resident of Norwich. Buy from someone local. No pressure, no fancy hype, just quality cars at fair prices! Central Auto Sales LLC, 429 Manley Road, Norwich. www.centralautosalesllc.com 607-336-6371.

# CAR CARE

## Campers' guide to RV care and maintenance

Sometimes referred to as recreational vehicles, travel trailers or campers, RVs are popular. According to the Recreation Vehicle Industry Association, RV shipments through February 2017 totaled 73,287 units. This represents an increase of 8.6 percent from the same period in 2016. In fact, RV shipments have increased for

seven consecutive years. This popularity might be driven by the affordability and convenience of vacationing in an RV. Essentially hotels or homes on wheels, campers provide many amenities in a compact package. RVs can be enjoyable, but mechanical failures and other problems can happen.

Regular maintenance, care and examination is necessary to avoid trip interruptions.

According to the recreational vehicle advice gurus at Do It Yourself RV, RVs require all of the standard maintenance of a car plus much more.

- **Schedule oil changes and filter replacement.** To keep the hard-working engine of an RV operating at optimal capacity, oil changes and air filter replacements should be conducted at regular intervals and in adherence to the owner's manual. Such maintenance prevents engines from seizing.
  - **Keep it covered.** RV roofs are susceptible to sun and environmental damage. Store the RV under a steel RV carport or cover it using a product specifically designed for an RV. Remember to routinely inspect and clean the roof of the camper as well.
  - **Check for leaks.** Look under the RV and/or tow vehicle for any signs of leaks. Repair leaks promptly. Transmission fluid leaks can lead to vehicle fires. When checking for leaks, check fluid levels to ensure they're at the proper level. This includes engine oil, transmission fluid, power steering fluid, windshield washer fluid, and brake fluid.
  - **Check radiator coolant.** Radiator coolant is another important fluid to check. Antifreeze protects the engine in cold temperatures, but it also helps the engine run cooler in hot temperatures. Wait for the RV to cool down before checking fluids.
  - **Periodically run the generator.** RV generators shouldn't go unused for too long. Gasoline has a short shelf life, and after time it can break down, condense and damage the generator's internal components. Run the generator if the RV has not been used for awhile. Be sure to change the oil and filter of the generator regularly as well.
  - **Drain and clean water and waste systems.** Water systems can benefit from being drained periodically and flushed with clean, fresh water. The disposal waste system needs to be drained as indicated in the owner's manual.
  - **Lubricate joints and slide-out rails.** Avoid rust and corrosion by spraying moving parts with a lubricant spray.
- RVs can be a home away from home while vacationing or touring the country. With proper maintenance, they can run like new for years. FC17A357

# 4 reasons to skip topping off at the filling station

The familiar click of the nozzle when filling up at the gas station is recognizable to anyone with a few miles of driving under their belt. Once that nozzle clicks, just about every driver faces the decision of whether or not to squeeze a few extra cents’ worth of gas into their vehicles or remove the nozzle from their vehicles, place it back where it belongs and head off on their way.

Such scenes play out every day across the globe, and it’s likely that the majority of drivers try to squeeze a few extra drops into their tank. While topping off can seem like a financially savvy way to delay your next trip to the filling station, doing so may only cost drivers and the planet they call home. The following are four great reasons to skip topping off the next time you pull into a filling station.

- 1. Topping off costs you money.  
According to the Environmental Protection Agency, drivers who top off at the pump are likely paying for gas they’re not getting. That’s because gas station pumps have vapor recovery systems that feed gas vapors back into their tanks in an effort to decrease air pollution. So any gas that drivers try to pump into their tanks after the nozzle has clicked may only be drawn into the vapor line and fed back into the gas station’s tanks and not your vehicle’s fuel tank.
- 2. Topping off may damage your car.  
Topping off won’t just hurt your pocketbook; it can potentially damage your vehicle as well. Fuel tanks need extra room inside them so gas can expand while the car is being operated. Without room to expand, gas may evaporate

- into the vehicle’s vapor collection system, which can damage the system and produce greater gas emissions, thereby harming the planet.
- 3. Topping off can affect the air you breathe.  
If you had a choice, would you pay extra for more air pollution? Likely not. But the EPA notes that this is precisely what many people are doing when they top off their gas tanks. When vehicles’ fuel tanks are overfilled, gas vapors can escape into the air and produce toxic air pollutants. That adversely affects air quality, which ultimately affects your health as well.
  - 4. Topping off can cost the gas station money.  
Many drivers may wonder why gas stations, who would seemingly benefit financially from topping off, post signs that forbid topping off. But the EPA notes that gas stations are likely to lose money due to drivers squeezing an extra few cents’ worth of gas into their vehicles. That’s because topping off can damage the station’s vapor recovery systems, causing them to operate improperly and requiring potentially costly maintenance.  
Topping off at the filling station may seem like a savvy move. But drivers, their vehicles and the planet are best served by taking the pump handle out of the tanks at the familiar sound of the nozzle’s click. SC193741

It's too late to  
know if your child's in  
the right car seat  
when you're driving.

Fortunately, you're  
only reading.

Car crashes are a leading killer of children 1 to 13. Is your child in the right car seat? Don't think you know. Know you know.
